

New evaluation report concerning Corev America's PRECOR and PRECOR-SB Systems

Houston, Texas - February 1, 2010 - Corev America announces the publication by ICC Evaluation Service of ESR-2000, a new evaluation report concerning Corev's PRECOR and PRECOR-SB Systems. This report is available as a pdf online at www.icc-es.org. PRECOR-SB is a secondary barrier drainage system available through Corev America and its distributors.

ICC-ES is the United States' leader in evaluating building products for compliance with code. A nonprofit, public-benefit corporation, ICC-ES does technical evaluations of building products, components, methods, and materials. The evaluation process culminates with the issuance of reports on code compliance, which are made available free of charge to code officials, contractors, specifiers, architects, engineers, and anyone else with an interest in the building industry and construction. ICC-ES evaluation reports provide evidence that products and systems meet code requirements.

About Corev America

Founded in 1982, Corev America is a Houston-based manufacturer of technologically advanced architectural coatings, adhesives, sealants, paints and exterior wall insulation systems.
