copper mountain 338

norwich brown 339

chelsea gray 340

Color samples and textures shown here are intended as representations of standard colors and should not be used for actual project color or texture selection. Samples should be prepared for approval of color and texture, using the same materials, tools and techniques to be employed at the jobsite

Corev finish coatings are environmentally friendly, 100% acrylic resin based, factory mixed, integral color products. Factory-mixed integral color offers significantly improved color control for projects of all sizes. Corev finishes exhibit superb color stability and consistency. They are durable, flexible and vapor permeable. Acrylic based finishes have been shown to reduce the incidence of efflorescence when used over stucco substrates.

Sahara

Corev textured finish coatings are DPR (Dirt Pick-up Resistance) synthetic finishes. This means that the surface of the finish is very hard, non-tacky, and therefore extremely resistant to the accumulation of dirt and mildew.

Corev textured finish coatings have been tested under a variety of ASTM and other standards relating to hardness, accelerated weathering, humidity resistance, abrasion resistance, chemical resistance and mildew resistance. See the Product Testing Summary for textured finish coatings on our website for more information.

Corev America was incorporated in Texas in 1982 to manufacture and market technologically advanced architectural coatings, primers, adhesives, sealants and exterior wall insulation systems. With international operating experience, Corev America draws from a wealth of knowledge in construction materials technology, environmental conditions and applications science. Corev is committed to manufacturing industry standard materials by formulating only with the most technologically advanced and highest quality components. Corev's research and development team is constantly testing, adapting and incorporating the latest in-house and industry developments into our products in order to continue to offer products that are long lasting, high performance, aesthetically appealing and well priced. Corev's product development is purely customer driven, related to our dedication to keeping our customers ahead of their competition. Visit www.corev.com for complete information about Corev America and its products.

Information contained in this bulletin conforms to the standard detail recommendations and specifications for the installation of Corev products, is presented in good faith, and is applicable as of the date of this document. Corev assumes no liability, expressed or implied, as to the architecture, engineering, or workmanship of any project.
